## Advertising options at Osage Beach City Parks

A great opportunity to support your Osage Beach parks is to advertise your business to thousands of lake families and visitors all year long. The City parks had a record breaking year in 2015! We hosted seven large youth softball/baseball tournaments; four adult slow-pitch tournaments; weekly little leagues games; the largest Fall Festival to date; the first annual Welcome to Summer event which included a concert and large fireworks show; the first annual Easter egg hunt; weekly softball leagues; and several other smaller events. With the growing events at the City parks bringing in more and more visitors every year, your advertising dollars would be well spent. The details on the three available advertising options are below.
