Financial Statements/Budget

Reconciliation October 31, 2020

Financial Statements are unaudited, but show we expended 67.4% of our \$29.5 million FY2020 Operating Budget and collected 72.9% of budgeted revenues for all funds.

The FY2019 Financial Statement audit work was recently completed. The City received a clean or unmodified opinion on the 2019 Financial Statements stating the financial statements for the prior year were presented fairly and in respect to the financial position and are in conformance with GAAP.

COVID-19 Impacts on the FY2020 Budget:

NOVEMBER UPDATE: As projections for year-end FY2020 are estimated to complete the FY2021 Operating Budget, overall FY2020 revenues, all sources, are estimated to come in through year-end at 0.5% under the original budget. Overall expenditures, all funds, are estimated at 4.8% less than budgeted. These calculations are net of carry over expenditures to FY2021 and any corresponding revenues.

As presented to the Mayor and Board of Aldermen at the May 7 Board of Aldermen meeting, an operational spending plan was outlined based on an estimated 15% decrease for FY2020 revenues, all sources, at that time. As we have moved through the summer month's financial activities, an updated operational spending plan was recently outlined based on an estimated 5.6% decrease for overall FY2020 revenues equating to an approximate \$1.5 million estimated revenue decline. To meet this estimated decline, \$580,000 in expenditures have been/will be cut. The remainder will be realized from city cash reserves. Latest report can be found [HERE](#).

Sales Tax Revenue Report:

Sales tax revenue represents a large portion of the City's revenue source, 47% projected in the FY2020 overall budget. Fees & Service Charges represent 30% of projected revenue in the FY2020 overall budget. Although used for only on-time expenditures, Grants & Reimbursements represent 17% of incoming revenues in FY2020; Other Income representing 6%.

The City's local sales tax is received in the second month after purchases are made by consumers. For example, purchases made in January by consumers are reported and to be paid to the State by the businesses in February, and received by the City in March.

NOVEMBER 2020 Sales Tax receipts are \$112,573 (2.6%) more than 2019 receipts for the same period and \$31,968 (0.7%) more that projected in the FY2020 Budget.

See *Sales Tax Data Report for October 2020* [HERE](#).

The following are the local sales tax receipts received from the State of Missouri for the month we indicate as October and represents sales made by consumers in August.

- General Fund (1%) - \$365,415
- Capital Improvement Tax (CIT) (0.5%) - \$179,220
- Transportation Sales Tax (0.5%) - \$179,226

Note: CIT and Transportation sales tax activity proportionally mirrors the General Fund sales tax activity, excluding a few nuances in sales tax application.
