

## COMMERCIAL PERMIT APPLICATION INFORMATION SHEET

*Please read this information sheet carefully to avoid delays in your permit issuance.*

The City of Osage Beach enforces the ICC 2012 International Building Code, International Residential Code, International Fire Code, International Plumbing Code, International Mechanical Code, the 2011 National Electrical Code, and the City of Osage Beach Design Guidelines.

***Incomplete applications will not be accepted or reviewed, and the applicant will be notified, or plans will be returned to the applicant via regular mail.***

If all information is in order and submitted at the same time, the plan review & approval will take approximately 10-14 workdays (from date of receipt). Larger projects will take longer depending on the number of plans for review.

The Building Permit Application needs to be filled out completely, front and back (Sign and initial where indicated). Submit application with two (2) sets of detailed drawings for commercial permits, prepared by the appropriate design professional(s), also include a current Site Plan.

The fee schedule for permit applications is attached and listed on the City web page ([www.osagebeach.org](http://www.osagebeach.org)).

**A Sign Off Sheet from the Osage Beach Fire Protection District Authority** will need to be completed, approved, signed and returned before a Commercial Permit can be issued. Their address is: 1170 Bluff Drive, Osage Beach, MO 65065. Their phone number is (573) 348-1221. You will need to provide them with a complete set of plans and whatever fees they will require - this is separate from the City's requirements and fees.

When the permit is approved, you will be contacted by the Building Department. All applicable fees, Building, Sewer, and Water fees are due in full when you pick up your building permit. Building permits are to be posted, visible from the road, at the job site and an approved set of plans must be kept on the job site.

A list of the inspections required is included. It is the responsibility of the contractor to call for all required inspections. The contractor/owner will be held accountable for any work done without an inspection by the City of Osage Beach, or the Osage Beach Fire District.

It is the responsibility of the General Contractor to make sure all contractors on the job have a current City of Osage Beach Contractor's license. This can be obtained through the City Clerk. No permit will be issued until all contractors listed on the permit have their license.

If you have any questions or require further clarification please contact the Building Department at City Hall, 1000 City Parkway, Osage Beach, MO 65065, or by phone at (573) 302-2030.
